

New Vision, New look, Continued Commitment to Excellence

As a valued customer/supplier of Sommer GmbH, we are delighted to share with you some exciting news.

Our group of companies is officially unveiling a modern new look on January 18th 2021.

Our group's name is being emphasised: the **Interconnect Solutions Group**. Our companies continue to be:

- Cabletec
- Gremtek
- Krempfast
- Rayfast
- Sommer

Our new strapline of being '**The Global Supplier with the Personal Touch**' underpins our commitment to delivering an excellent personal service to all of our customers across a global landscape.

We will do so by building on our rich history, which dates back more than half a century.

We believe this brand refresh gives us an innovative, fresh and modern look. It retains the best of our history, whilst heralding our ambitions for the future.

Each of our companies are adopting the new group brand design. As we open or acquire new companies, they will be incorporated with this group branding.

We believe in building close long-term relationships and trust our new look only emphasises our commitment to delivering the best in class global service to you.

If you would like to speak to any of the team, we would be delighted to hear from you

David Hewitt
Group Managing Director

The Global Supplier with the Personal Touch
