

APPLICATION EQUIPMENT

AD-1377-S & AD-1522-1

Hand operated crimp tools

AD-1377-S Crimp Tool

The AD-1377-S crimp tool can be used on all MiniSeal crimp barrels. A calibration verification gauge AD-1386, is also available for the AD-1377-S.

AD-1522-1 Crimp Tool

The AD-1522-1 crimp tool can be used on all DuraSeal crimp products. It has a pre-set crimp depth, that provides the optimum combination of tensile strength and insulation integrity in the finished splice.
